

# TIPS TO COMBAT CORONAVIRUS

---

Today, we are going to run errands and then mama has to get some work done. You and I will wear a mask.

Why are we wearing a mask?

There are germs called corona and they are not good for us. But if we wash our hands, keep our distance from people and wear a mask, we will be okay.

Mama will tell you what to do so we can be safe.

Remember, we keep  
our masks on unless  
mama tells you that  
you can remove it.  
Got it?

Got it!! I like  
the hearts.  
We match.

Keeping 6 ft. distance in line while waiting to get  
take out...

Good job, washing your hands! Let's count to 20, so the soap kills the germs. 1, 2, ...20! Here is a towel to dry your hands.

- WEAR YOUR MASK
- KEEP 6 FT DISTANCE
- WASH YOUR HANDS
